Subject Index

Acetylcholinesterase

systematic regional differences in the cholinergic innervation of the primate cerebral cortex: distribution of enzyme activities and some behavioral implications (Mesulam et al), 144

Acetylcholinesterase, metabolism

distribution of the molecular forms of acetylcholinesterase in human brain: alterations in dementia of the Alzheimer type (Fishman et al), 246

Acetyltransferases

systematic regional differences in the cholinergic innervation of the primate cerebral cortex: distribution of enzyme activities and some behavioral implications (Mesulam et al), 144

Acquired immunodeficiency syndrome

AIDS dementia complex: I. clinical features (Navia et al), 517

AIDS dementia complex: II. neuropathology (Navia et al), 525

cerebral toxoplasmosis complicating the acquired immune deficiency syndrome: clinical and neuropathological findings in 27 patients (Navia et al), 224

progressive encephalitis three months after resolution of cutaneous zoster in a patient with AIDS (Ryder et al), 182

ACTH. See corticotropin

Age factors

age differences in intercorrelations between regional cerebral metabolic rates for glucose (Horwitz et al), 60

AIDS. See Acquired Immunodeficiency Syndrome

Alzheimer's disease

Alzheimer's disease: monoamines and spiperone binding reduced in nucleus basalis (Sparks et al), 602

cerebral mapping of apraxia in Alzheimer's disease by positron emission tomography (Foster et al), 139

concept of subcortical and cortical dementia: another look (Whitehouse), NEUROLOGICAL PROGRESS, 1

cytoskeletal protein abnormalities in neurodegenerative diseases (Goldman and Yen), NEUROLOGICAL PROGRESS, 209

distribution of the molecular forms of acetylcholinesterase in human brain: alterations in dementia of the Alzheimer type (Fishman et al), 246

epidemiology of clinically diagnosed Alzheimer's disease (Rocca et al), NEUROLOGICAL PROGRESS, 415

regional distribution of amino acid transmitters in post-mortem brains of presenile and senile dementia of the Alzheimer type (Sasaki et al), 263

systematic regional differences in the cholinergic innervation of the primate cerebral cortex: distribution of enzyme activities and some behavioral implications (Mesulam et al), 144

white matter disorder in dementia of the Alzheimer type: a pathoanatomical study (Brun and Englund), 253

Amantadine

amantadine may be useful in essential tremor (Obeso et al), LETTER, 99

Amyotrophic lateral sclerosis

cytoskeletal protein abnormalities in neurodegenerative

diseases (Goldman and Yen), NEUROLOGICAL PROGRESS, 209

Aneurysm, dissecting

spontaneous dissection of the cervical internal carotid artery (Mokri et al), 126

Anosmia

new syndrome of anosmia, ichthyosis, hypogonadism, and various neurological manifestations with deficiency of steroid sulfatase and arylsulfatase C (Sunohara et al), 174

Antibodies

clinical correlation with anti-peripheral-nerve myelin antibodies in Guillain-Barré syndrome (Koski et al), 573

Antibodies, monoclonal

human anti-myelin-associated glycoprotein IgM system (Murray et al), 473

immunohistochemical analysis of the cellular infiltrate in multiple sclerosis lesions (Hauser et al), 578

monoclonal antibody analysis of mononuclear cells in myopathies. III: immunoelectron microscopy aspects of cell-mediated muscle fiber injury (Arahata and Engel), 112

Antibodies, viral

antidiotypic antibody to reovirus binds to neurons and protects from viral infection (Dichter et al), 555

Anticonvulsants

alternative single anticonvulsant drug therapy for refractory epilepsy (Schmidt and Richter), 85

Antigens, immune response

immunohistochemical analysis of the cellular infiltrate in multiple sclerosis lesions (Hauser et al), 578

lymphocyte phenotypes in the multiple sclerosis lesion—what do they mean? (Zweiman), EDITORIAL, 588

Aphasia

slowly progressive aphasia without generalized dementia: studies with positron emission tomography (Chawluk et al), 68

Apraxia

cerebral mapping of apraxia in Alzheimer's disease by positron emission tomography (Foster et al), 139

Arylsulfatases

new syndrome of anosmia, ichthyosis, hypogonadism, and various neurological manifestations with deficiency of steroid sulfatase and arylsulfatase C (Sunohara et al), 174

Ascorbic acid

treatment of mitochondrial myopathy due to complex III deficiency with vitamins K₃ and C: a ³¹P-NMR follow-up study (Argov et al), 598

Aspartate

regional distribution of amino acid transmitters in post-mortem brains of presenile and senile dementia of the Alzheimer type (Sasaki et al), 263

Asphyxia neonatorum

granule cell deficit in the mouse cerebellum after total asphyxia (Yoshioka et al), 356

Aspiration

swallowing and speech production in Parkinson's disease (Robbins et al), 283

Atrial fibrillation

atrial size, atrial fibrillation, and stroke (Caplan et al), 158

Atrophy

abnormal platelet glutamate dehydrogenase activity and

- activation in dominant and nondominant olivopontocerebellar atrophy (Sorbi et al), 239
- Autoimmune diseases**
isolation of P₂ protein-reactive T-cell lines from human blood (Burns et al), 391
- Axons, physiopathology**
impaired slow axonal transport in wobbler mouse motor neuron disease (Mitsumoto and Gambetti), 36
- Axoplasmic flow**
axonal transport in the motor neurons of rats with neuropathy induced by *p*-bromophenylacetylurea (Nagata and Brimijoin), 458
- Basal ganglia**
Alzheimer's disease: monoamines and spiperone binding reduced in nucleus basalis (Sparks et al), 602
- Basal ganglia, physiology**
deficits in orofacial sensorimotor function in Parkinson's disease (Schneider et al), 275
- Basilar artery**
loss of consciousness in migraine: clinical and EEG findings during an attack (Dick et al), LETTER, 514
- Behavior**
frontal cortex and behavior (Mesulam), EDITORIAL, 320
human anatomy and the frontal lobes. Part I: imitation and utilization behavior: a neuropsychological study of 75 patients (Lhermitte et al), 326
human anatomy and the frontal lobes. Part II: patient behavior in complex and social situations: the "environmental dependency syndrome" (Lhermitte), 335
- Bilirubin**
kernicterus in an adult (Waser et al), 595
- Binding sites**
in vitro or in vivo receptor binding: where does the truth lie? (Perlmutter and Raichle), EDITORIAL, 384
- Blinking**
blink-induced saccadic oscillations (Hain et al), 299
- Blood-brain barrier**
effect of dexamethasone on blood-brain barrier in the normal mouse (Hedley-Whyte and Hsu), 375
increased leukotriene C₄ and vasogenic edema surrounding brain tumors in humans (Black et al), 592
opening the blood-brain and blood-tumor barriers in experimental rat brain tumors: the effect of intracarotid hyperosmolar mannitol on capillary permeability and blood flow (Hiesiger et al), 50
- Blood cells**
effect of thymectomy on blood T-cell subsets in myasthenia gravis (Cox et al), 297
- B lymphocytes**
immunohistochemical analysis of the cellular infiltrate in multiple sclerosis lesions (Hauser et al), 578
- Books (brief reviews)**
Anatomy as a Basis for Clinical Medicine, by Hall-Craggs, 616
Atlas of the Ocular Fundus, by Sautter et al, 103
Brain's Clinical Neurology, ed 6, by Bannister, 615
The Catecholamines in Psychiatric Disorders, by Lake and Ziegler, 616
Catecholamines. Part A: Basic and Peripheral Mechanisms. Part B: Neuroparmacology and Central Nervous System—Theoretical Aspects. Part C: Neuroparmacology and Central Nervous System—Therapeutic Aspects (Neurology and Neurobiology, Vols 8A, 8B, and 8C), edited by Usdin et al, 104
Cerebral Death, ed 3, by Walker, 615
Child Neurology. A Clinical Manual, edited by Berg, 104
Clinical Aspects of Sleep and Sleep Disturbance, edited by Riley, 617
Clinical Neurology of Aging, edited by Albert, 103
Contemporary Neurology, edited by Harrison, 103
Current Neurology, Vol 5, edited by Appel, 103
Current Therapy in Neurologic Disease 1985–1986, edited by Johnson, 615
Current Therapy in Neurological Surgery, by Long, 617
The Diagnosis and Treatment of Epilepsy, by Lechtenberg, 208
Dyslexia, A Neuroscientific Approach to Clinical Evaluation, edited by Duffy and Geschwind, 617
Electromyography and Evoked Potentials, Theories and Applications, edited by Struppler and Weindel, 617
Electromyography in CNS Disorders: Central EMG, edited by Shahani, 104
Epilepsy and GABA Receptor Agonists, Basic and Therapeutic Research, edited by Bartholini et al, 616
Epilepsy, 100 Elementary Principles (Major Problems in Neurology, Vol 12), by Porter, 103
Ganglioside Structure, Function and Biomedical Potential, edited by Ledeen et al, 208
Genetics and Neurology, by Bunday, 615
Handbook of Cognitive Neuroscience, edited by Gazzaniga, 103
Handbook of Neurochemistry, ed 2: Alterations of Metabolites in the Nervous System, Vol 9, edited by Lajtha, 310
Handbook of Neurochemistry, ed 2: Metabolic Turnover in the Nervous System, Vol 5, edited by Lajtha, 310
Handbook of Neurochemistry, ed 2: Pathological Neurochemistry, Vol 10, edited by Lajtha, 310
Handbook of Neurochemistry, ed 2: Receptors in the Nervous System, Vol 6, edited by Lajtha, 310
Handbook of Neurochemistry, ed 2: Structural Elements of the Nervous System, Vol 7, edited by Lajtha, 310
Infectious Diseases of the Central Nervous System, edited by Thompson and Green, 103
Manual of Clinical Problems in Neurology, edited by Mohr, 104
The Mental Status Examination in Neurology, ed 2, by Strub and Black, 617
Modern Approaches to the Dementias, Part I: Etiology and Pathophysiology, Part II: Clinical and Therapeutic Aspects, by Rose, 615
Neural Grafting in the Mammalian CNS, edited by Bjorklund and Stenevi, 615
Neurobiology of Gangliosides, edited by Gorio and Haber, 616
The Neuron and the Glial Cell, by Cajal, translated and edited by de la Torre and Gibson, 103
Neurosurgery (three volumes), by Wilkins and Rengachary, 616
NMR-Tomography and -Spectroscopy in Medicine, by Roth, 616
The Olivopontocerebellar Atrophies (Advances in Neurology, Vol 41), edited by Duvoisin and Plaitakis, 104
Organic Psychiatry, the Psychological Consequences of Cerebral Disorders, by Lishman, 208
Paediatric Neurology, ed 2, by Gamstorp, 616
Pathology of Skeletal Muscle, by Carpenter and Karpati, 104
Peripheral Nerve Disorders (Neurology 4), edited by Asbury and Gilliatt, 103
Recent Advances in Clinical Neurology, edited by Matthews and Glaser, 208
Recent Advances in Epilepsy, Vol 2, edited by Pedley and Meldrum, 615

Books (brief reviews) (continued)

- Recent Progress in the Study and Therapy of Brain Edema*, edited by Go and Baethmann, 103
- The Science of the Mind*, by Flanagan, 103
- Scientific Basis of Clinical Neurology*, edited by Swash and Kennard, 208
- Sleep Mechanisms, Experimental Brain Research Supplement 8*, edited by Borbely and Valatx, 103
- Understand Your Backache: A Guide to Prevention, Treatment, and Relief*, by Cailliet, 103
- Brain, metabolism**
age differences in intercorrelations between regional cerebral metabolic rates for glucose (Horwitz et al), 60
- Brain, pathology**
AIDS dementia complex: II. neuropathology (Navia et al), 525
- Brain chemistry**
distribution of the molecular forms of acetylcholinesterase in human brain: alterations in dementia of the Alzheimer type (Fishman et al), 246
regional distribution of amino acid transmitters in post-mortem brains of presenile and senile dementia of the Alzheimer type (Sasaki et al), 263
thymosin β_4 is a shared antigen between lymphoid cells and oligodendrocytes of normal human brain (Dalakas and Trapp), 349
- Brain diseases, pathology**
cerebral toxoplasmosis complicating the acquired immune deficiency syndrome: clinical and neuropathological findings in 27 patients (Navia et al), 224
- Brain edema**
effect of dexamethasone on blood-brain barrier in the normal mouse (Hedley-Whyte and Hsu), 375
increased leukotriene C_4 and vasogenic edema surrounding brain tumors in humans (Black et al), 592
- Brain mapping**
cerebral mapping of apraxia in Alzheimer's disease by positron emission tomography (Foster et al), 139
- Brain mapping, instrumentation**
response to Oken and Chiappa (Duffy et al), 494
statistical issues concerning computerized analysis of brain-wave topography (Oken and Chiappa), 493
statistical issues concerning computerized analysis of brain-wave topography (Asbury), EDITORIAL COMMENT, 497
- Brain neoplasms**
cerebrospinal fluid polyamines: biochemical markers of malignant childhood brain tumors (Phillips et al), 360
focal cerebral vasculitis associated with circulating immune complexes and brain irradiation (Groothuis and Mikhael), 590
increased leukotriene C_4 and vasogenic edema surrounding brain tumors in humans (Black et al), 592
neurophysiological techniques as an aid to surgical treatment of primary brain tumors (Morris et al), 559
opening the blood-brain and blood-tumor barriers in experimental rat brain tumors: the effect of intracarotid hyperosmolar mannitol on capillary permeability and blood flow (Hiesiger et al), 50
postoperative contrast enhancement in patients with brain tumor (Weisberg), LETTER, 611; reply (Cairncross et al), LETTER, 611
- Bromophenylacetylurea**
axonal transport in the motor neurons of rats with neuropathy induced by *p*-bromophenylacetylurea (Nagata and Brimijoin), 458
- Capillary permeability**
opening the blood-brain and blood-tumor barriers in experimental rat brain tumors: the effect of intracarotid hyperosmolar mannitol on capillary permeability and blood flow (Hiesiger et al), 50
- Carcinoma, oat cell**
anticerebellar antibodies in serum and cerebrospinal fluid of a patient with oat cell carcinoma of the lung and paraneoplastic cerebellar degeneration (Greenlee and Lipton), 82
- Carotid artery, internal**
spontaneous dissection of the cervical internal carotid artery (Mokri et al), 126
- Catecholamines**
status epilepticus: divergence of sympathetic activity and cardiovascular response (Benowitz et al), 197
- Cerebellar ataxia**
Joseph's disease: clinical and pathological studies in a Japanese family (Yuasa et al), 152
- Cerebellar diseases**
abnormal platelet glutamate dehydrogenase activity and activation in dominant and nondominant olivopontocerebellar atrophy (Sorbi et al), 239
anticerebellar antibodies in serum and cerebrospinal fluid of a patient with oat cell carcinoma of the lung and paraneoplastic cerebellar degeneration (Greenlee and Lipton), 82
cerebellar infarction: comparison of computed tomography and magnetic resonance imaging (Simmons et al), 291
- Cerebellar infarction**
cerebellar infarction: comparison of computed tomography and magnetic resonance imaging (Simmons et al), 291
- Cerebellum, cytology**
granule cell deficit in the mouse cerebellum after total asphyxia (Yoshioka et al), 356
- Cerebral cortex, metabolism**
systematic regional differences in the cholinergic innervation of the primate cerebral cortex: distribution of enzyme activities and some behavioral implications (Mesulam et al), 144
- Cerebral cortex, pathology**
frontal cortex and behavior (Mesulam), EDITORIAL, 320
human anatomy and the frontal lobes. Part I: imitation and utilization behavior: a neuropsychological study of 75 patients (Lhermitte et al), 326
human anatomy and the frontal lobes. Part II: patient behavior in complex and social situations: the "environmental dependency syndrome" (Lhermitte), 335
slowly progressive aphasia without generalized dementia: studies with positron emission tomography (Chawluk et al), 68
white matter disorder in dementia of the Alzheimer type: a pathoanatomical study (Brun and Englund), 253
- Cerebral embolism and thrombosis**
recurrent cerebral embolism from a right atrial myxoma (Butler et al), LETTER, 608
thrombotic cerebral vasculopathy associated with herpes zoster (Eidelberg et al), 7
- Cerebral ischemia**
glutamate and the pathophysiology of hypoxic-ischemic brain damage (Rothman and Olney), NEUROLOGICAL PROGRESS, 105
kinetics of microcirculatory, NAD/NADH, and electrocorticographic changes in cat brain cortex during ischemia and recirculation (Dora et al), 536

- narcolepsy following cerebral hypoxic ischemia (Rivera et al), 505
- uptake of radiolabeled ions in normal and ischemia-damaged brain (Dienel and Pulsinelli), 465
- Cerebrospinal fluid proteins
- low CSF protein concentration in idiopathic pseudotumor cerebri (Chandra et al), 78
- Cerebrovascular circulation
- kinetics of microcirculatory, NAD/NADH, and electrocorticographic changes in cat brain cortex during ischemia and recirculation (Dora et al), 536
- opening the blood-brain and blood-tumor barriers in experimental rat brain tumors: the effect of intracarotid hyperosmolar mannitol on capillary permeability and blood flow (Hiesiger et al), 50
- Cerebrovascular disorders
- white matter disorder in dementia of the Alzheimer type: a pathoanatomical study (Brun and Englund), 253
- Cerebrovascular disorders, drug therapy
- glutamate and the pathophysiology of hypoxic-ischemic brain damage (Rothman and Olney), *NEUROLOGICAL PROGRESS*, 105
- Choline acetyltransferase, metabolism
- distribution of the molecular forms of acetylcholinesterase in human brain: alterations in dementia of the Alzheimer type (Fishman et al), 246
- Circle of Willis, pathology
- thrombotic cerebral vasculopathy associated with herpes zoster (Eidelberg et al), 7
- Citrulline
- episodic Tourette's syndrome in a patient with Citrullinemia (Drury et al), *LETTER*, 612
- Clinical trials
- neuroepidemiology. Part II: assessment of therapeutic trials (Kurtzke), *NEUROLOGICAL PROGRESS*, 311
- Contrast media
- intravascular contrast media and neuromuscular junction disorders (Van den Bergh et al), *LETTER*, 206
- postoperative contrast enhancement in patients with brain tumor (Weisberg), *LETTER*, 611; reply (Cairncross et al), *LETTER*, 611
- Cori's disease. *See* Glycogenesis 3
- Corpus striatum
- dopamine denervation does not alter in vivo ^3H -spiperone binding in rat striatum: implications for external imaging of dopamine receptors in Parkinson's disease (Bennett and Wooten), 378
- striatal dopamine depletion, dopamine receptor stimulation, and GABA metabolism: implications for the therapy of Parkinson's disease (Bennett), 194
- Corticotropin
- fatal *Pneumocystis* pneumonia from ACTH therapy for infantile spasms (Goerting), *LETTER*, 307
- Cryptococcus neoformans*
- false negative latex agglutination test in cryptococcal meningitis (Haldane et al), *LETTER*, 412
- CT. *See* tomography, x-ray computed
- Cyproheptadine
- antimigraine drug interactions with 5-hydroxytryptamine $_{1A}$ receptors (Hiner et al), 511
- Decompression surgery
- how does vascular decompression surgery improve trigeminal neuralgia? (Tenser), *LETTER*, 514
- Decontamination
- precautions in handling tissues, fluids, and other contaminated materials from patients with documented or suspected Creutzfeldt-Jakob disease (Committee on Health Care Issues, American Neurological Association), *HEALTH CARE ISSUES*, 75
- Deglutition disorders
- swallowing and speech production in Parkinson's disease (Robbins et al), 283
- Dementia
- AIDS dementia complex: I. clinical features (Navia et al), 517
- AIDS dementia complex: II. neuropathology (Navia et al), 525
- distribution of the molecular forms of acetylcholinesterase in human brain: alterations in dementia of the Alzheimer type (Fishman et al), 246
- white matter disorder in dementia of the Alzheimer type: a pathoanatomical study (Brun and Englund), 253
- Dementia, classification
- concept of subcortical and cortical dementia: another look (Whitehouse), *NEUROLOGICAL PROGRESS*, 1
- Dementia, presenile
- regional distribution of amino acid transmitters in post-mortem brains of presenile and senile dementia of the Alzheimer type (Sasaki et al), 263
- Dementia, senile
- regional distribution of amino acid transmitters in post-mortem brains of presenile and senile dementia of the Alzheimer type (Sasaki et al), 263
- Demyelinating diseases
- clinical correlation with anti-peripheral-nerve myelin antibodies in Guillain-Barré syndrome (Koski et al), 573
- fiber loss is primary and multifocal in sural nerves in diabetic polyneuropathy (Rizza), 425
- immunohistochemical analysis of the cellular infiltrate in multiple sclerosis lesions (Hauser et al), 578
- normal myelination of regenerating peripheral nerve sprouts despite circulating antibodies to galactocerebroside in rabbits (Stoll et al), 189
- thymosin β_4 is a shared antigen between lymphoid cells and oligodendrocytes of normal human brain (Dalakas and Trapp), 349
- workshop on mechanisms of myelin breakdown (Quarles et al), *LETTER*, 97
- Dexamethasone
- effect of dexamethasone on blood-brain barrier in the normal mouse (Hedley-Whyte and Hsu), 375
- Diabetic neuropathies
- does improved control of glycemia prevent or ameliorate diabetic polyneuropathy? (Committee on Health Care Issues, American Neurological Association), *HEALTH CARE ISSUES*, 288
- fiber loss is primary and multifocal in sural nerves in diabetic polyneuropathy (Rizza), 425
- pathogenesis of diabetic neuropathy (Johnson et al), 450
- spatial distribution of fiber loss in diabetic neuropathy suggests ischemia (Dyck et al), 440
- Diatrizoate meglumine
- intravascular contrast media and neuromuscular junction disorders (Van den Bergh et al), *LETTER*, 206
- Diplopia
- ocular palsy preceding chronic relapsing polyneuropathy (Fleet and Valenstein), *LETTER*, 413
- Dolichol, urine
- urinary sediment dolichols in the diagnosis of neuronal ceroid-lipofuscinosis (Wolfe et al), 270
- Dopa
- long-term follow-up of early dopa treatment in Parkinson's disease (Markham and Diamond), 365

- Dopamine**
 Alzheimer's disease: monoamines and spiperone binding reduced in nucleus basalis (Sparks et al), 602
 striatal dopamine depletion, dopamine receptor stimulation, and GABA metabolism: implications for the therapy of Parkinson's disease (Bennett), 194
- Dystonia**
 tetrabenazine and dystonia in primates (Liebman), LETTER, 203; reply (Burke), LETTER, 204
- Edrophonium**
 edrophonium: an aid in the diagnosis of acute organophosphate poisoning (Maselli et al), 508
- Electrodes, implanted**
 neurophysiological techniques as an aid to surgical treatment of primary brain tumors (Morris et al), 559
- Electroencephalography**
 are interictal spikes ictal events? (Joseph), LETTER, 608; reply (Gotman and Marciani), LETTER, 609
 interictal spiking and seizures (Hardiman et al), LETTER, 609; reply (Gotman and Marciani), LETTER, 610
 loss of consciousness in migraine: clinical and EEG findings during an attack (Dick et al), LETTER, 514
 response to Oken and Chiappa (Duffy et al), 494
 statistical issues concerning computerized analysis of brain-wave topography (Oken and Chiappa), 493
- Encephalitis**
 progressive encephalitis three months after resolution of cutaneous zoster in a patient with AIDS (Ryder et al), 182
- Encephalomyelitis, allergic**
 incubation period and severity of experimental allergic encephalomyelitis: analogy with swine-flu-vaccine-induced Guillain-Barré syndrome (Alvord), LETTER, 100
- Encephalomyelopathy, subacute necrotizing**
 magnetic resonance imaging in subacute necrotizing encephalomyelopathy (Leigh's disease) (Koch et al), 605
- Endocarditis, bacterial**
 "mineral transporter" therapy for multiple sclerosis complicated by bacterial endocarditis (Brown and Brooks), LETTER, 203
- Endocarditis, subacute bacterial**
 focal cerebral vasculitis associated with circulating immune complexes and brain irradiation (Groothuis and Mikhael), 590
- Endorphins**
 traumatic injury alters opiate receptor binding in rat spinal cord (Krumins and Faden), 498
- Epidemiological methods**
 neuroepidemiology. Part II: assessment of therapeutic trials (Kurtzke), NEUROLOGICAL PROGRESS, 311
- Epidemiology**
 epidemiology of clinically diagnosed Alzheimer's disease (Rocca et al), NEUROLOGICAL PROGRESS, 415
 tropical spastic paraparesis (Coleman and Sander), LETTER, 613; reply (Román et al), LETTER, 613
- Epilepsy**
 alternative single anticonvulsant drug therapy for refractory epilepsy (Schmidt and Richter), 85
 are interictal spikes ictal events? (Joseph), LETTER, 608; reply (Gotman and Marciani), LETTER, 609
 comparison of isoflurane, halothane, and nitrous oxide in status epilepticus (Ropper et al), LETTER, 98
 interictal spiking and seizures (Hardiman et al), LETTER, 609; reply (Gotman and Marciani), LETTER, 610
 painful epileptic seizures involving the second sensory area (Young et al), LETTER, 412
 status epilepticus: divergence of sympathetic activity and cardiovascular response (Benowitz et al), 197
- Epilepsy, focal**
 α -1 adrenoceptors are decreased in human epileptic foci (Brière et al), 26
- Epilepsy, generalized**
 benign versive or circling epilepsy with bilateral 3-cps spike-and-wave discharges in late childhood (Gastaut et al), 301
- Erythrocytes**
 phosphorylation of intact erythrocytes in human muscular dystrophy (Johnson and Nigro), 397
- Evoked potentials**
 contingent negative variation in headache (de Noordhout et al), 78
 giant axonal neuropathy: central abnormalities demonstrated by evoked potentials (Majnemer et al), 394
 initial diagnosis of multiple sclerosis (Nuwer et al), LETTER, 414; reply (Gebarski et al), LETTER, 414
 response to Oken and Chiappa (Duffy et al), 494
 statistical issues concerning computerized analysis of brain-wave topography (Oken and Chiappa), 493
- Evoked potentials, somatosensory**
 neurophysiological techniques as an aid to surgical treatment of primary brain tumors (Morris et al), 559
 postoperative neurological deficits may occur despite unchanged intraoperative somatosensory evoked potentials (Lesser et al), 22
 recovery of somatosensory evoked potential amplitude after movement (Angel et al), 344
- Fluoroscopy**
 swallowing and speech production in Parkinson's disease (Robbins et al), 283
- Frontal lobe, pathology**
 frontal cortex and behavior (Mesulam); EDITORIAL, 320
 human anatomy and the frontal lobes. Part I: imitation and utilization behavior: a neuropsychological study of 75 patients (Lhermitte et al), 326
 human anatomy and the frontal lobes. Part II: patient behavior in complex and social situations: the "environmental dependency syndrome" (Lhermitte), 335
- GABA**
 regional distribution of amino acid transmitters in post-mortem brains of presenile and senile dementia of the Alzheimer type (Sasaki et al), 263
 striatal dopamine depletion, dopamine receptor stimulation, and GABA metabolism: implications for the therapy of Parkinson's disease (Bennett), 194
- Galactosylceramides**
 normal myelination of regenerating peripheral nerve sprouts despite circulating antibodies to galactocerebroside in rabbits (Stoll et al), 189
- Gamma-aminobutyric acid. See GABA**
- Gangliosidosis**
 diagnosis of AB variant, GM₂ gangliosidosis (Kotagal), LETTER, 102; reply (Kivlin), LETTER, 102
- Giant axonal neuropathy**
 giant axonal neuropathy: central abnormalities demonstrated by evoked potentials (Majnemer et al), 394
- Glioma**
 focal cerebral vasculitis associated with circulating immune complexes and brain irradiation (Groothuis and Mikhael), 590
- Glucose, metabolism**
 age differences in intercorrelations between regional cerebral metabolic rates for glucose (Horwitz et al), 60

- slowly progressive aphasia without generalized dementia: studies with positron emission tomography (Chawluk et al), 68
- Glutamate dehydrogenase, blood
abnormal platelet glutamate dehydrogenase activity and activation in dominant and nondominant olivopontocerebellar atrophy (Sorbi et al), 239
- Glutamates
glutamate and the pathophysiology of hypoxic-ischemic brain damage (Rothman and Olney), **NEUROLOGICAL PROGRESS**, 105
regional distribution of amino acid transmitters in post-mortem brains of presenile and senile dementia of the Alzheimer type (Sasaki et al), 263
- Glycogen
accumulation of glycogen in sural nerve axons in adult-onset type III glycogenosis (Ugawa et al), 294
- Glycogenosis 3
accumulation of glycogen in sural nerve axons in adult-onset type III glycogenosis (Ugawa et al), 294
- Glycoproteins
human anti-myelin-associated glycoprotein IgM system (Murray et al), 473
- Granule cell
granule cell deficit in the mouse cerebellum after total asphyxia (Yoshioka et al), 356
- Guillain-Barré syndrome. *See* polyradiculoneuritis
- Gyrus cinguli
 α -1 adrenoceptors are decreased in human epileptic foci (Brière et al), 26
- Halothane
comparison of isoflurane, halothane, and nitrous oxide in status epilepticus (Ropper et al), **LETTER**, 98
- Head
deficits in orofacial sensorimotor function in Parkinson's disease (Schneider et al), 275
- Headache
contingent negative variation in headache (de Noordhout et al), 78
- Health care issues
does improved control of glycemia prevent or ameliorate diabetic polyneuropathy? (Committee on Health Care Issues, American Neurological Association), 288
precautions in handling tissues, fluids, and other contaminated materials from patients with documented or suspected Creutzfeldt-Jakob disease (Committee on Health Care Issues, American Neurological Association), 75
- Heart arrest
narcolepsy following cerebral hypoxic ischemia (Rivera et al), 505
- Heart atrium
atrial size, atrial fibrillation, and stroke (Caplan et al), 158
- Hemolytic-uremic syndrome
neurological involvement in hemolytic-uremic syndrome (Sheth et al), 90
- Hemorrhage
spinal canal hemorrhage and CT scanning (Carol et al), **LETTER**, 102
- Hepatitis
kernicterus in an adult (Waser et al), 595
- Hepatitis A
Guillain-Barré syndrome associated with hepatitis A (Marés-Segura et al), **LETTER**, 100
- Hepatolenticular degeneration
Wilson's disease and Kayser-Fleischer rings (Scheinberg et al), **LETTER**, 613; reply (Ross et al), **LETTER**, 614
- Herpes zoster
progressive encephalitis three months after resolution of cutaneous zoster in a patient with AIDS (Ryder et al), 182
thrombotic cerebral vasculopathy associated with herpes zoster (Eidelberg et al), 7
- Hexosaminidases
N-acetyl- β -hexosaminidase β locus defect and juvenile motor neuron disease: a case study (Cashman et al), 568
- Huntington's chorea
concept of subcortical and cortical dementia: another look (Whitehouse), **NEUROLOGICAL PROGRESS**, 1
- Hyperglycemia
does improved control of glycemia prevent or ameliorate diabetic polyneuropathy? (Committee on Health Care Issues, American Neurological Association), **HEALTH CARE ISSUES**, 288
- Hypergonadism
new syndrome of anosmia, ichthyosis, hypogonadism, and various neurological manifestations with deficiency of steroid sulfatase and arylsulfatase C (Sunohara et al), 174
- Hypotension
status epilepticus: divergence of sympathetic activity and cardiovascular response (Benowitz et al), 197
- Ichthyosis
new syndrome of anosmia, ichthyosis, hypogonadism, and various neurological manifestations with deficiency of steroid sulfatase and arylsulfatase C (Sunohara et al), 174
- Idiopathic ataxic neuropathy, chronic
chronic idiopathic ataxic neuropathy (Dalakas), 545
- Image enhancement
postoperative contrast enhancement in patients with brain tumor (Weisberg), **LETTER**, 611; reply (Cairncross et al), **LETTER**, 611
- Imitative behavior
human anatomy and the frontal lobes. Part I: imitation and utilization behavior: a neuropsychological study of 75 patients (Lhermitte et al), 326
human anatomy and the frontal lobes. Part II: patient behavior in complex and social situations: the "environmental dependency syndrome" (Lhermitte), 335
- Immune complex disease
focal cerebral vasculitis associated with circulating immune complexes and brain irradiation (Groothuis and Mikhael), 590
- Immunoglobulins
oligoclonal immunoglobulin bands in cerebrospinal fluid of a patient with lymphocytic choriomeningitis (Jamieson et al), 386
- Immunoglobulins, kappa chain
dysglobulinemic neuropathy: absence of immunoglobulin within myelin sheaths (Rodriguez and Powell), **LETTER**, 204
- Interferons
intrathecal interferon in subacute sclerosing panencephalitis (Huttenlocher et al), 303
- In vitro
in vitro or in vivo receptor binding: where does the truth lie? (Perlmutter and Raichle), **EDITORIAL**, 384
- In vivo
in vitro or in vivo receptor binding: where does the truth lie? (Perlmutter and Raichle), **EDITORIAL**, 384
- Ischemia
spatial distribution of fiber loss in diabetic neuropathy suggests ischemia (Dyck et al), 440

- Isoflurane**
comparison of isoflurane, halothane, and nitrous oxide in status epilepticus (Ropper et al), LETTER, 98
- Jakob-Creutzfeldt syndrome**
precautions in handling tissues, fluids, and other contaminated materials from patients with documented or suspected Creutzfeldt-Jakob disease (Committee on Health Care issues, American Neurological Association), HEALTH CARE ISSUES, 75
- Jaundice**
kernicterus in an adult (Waser et al), 595
- Jaw**
deficits in orofacial sensorimotor function in Parkinson's disease (Schneider et al), 275
- Joseph's disease.** See cerebellar ataxia
- Kayser-Fleischer rings**
Wilson's disease and Kayser-Fleischer rings (Scheinberg et al), LETTER, 613; reply (Ross et al), LETTER, 614
- Kernicterus**
kernicterus in an adult (Waser et al), 595
- Latex fixation tests**
false negative latex agglutination test in cryptococcal meningitis (Haldane et al), LETTER, 412
- Leg**
periodic leg movements of sleep (nocturnal myoclonus): an electrophysiological study (Wechsler et al), 168
- Leigh's disease.** See encephalomyelopathy, subacute, necrotizing
- Leukoencephalopathy, progressive multifocal**
progressive multifocal leukoencephalopathy and magnetic resonance imaging (Levy et al), 399
- Leukotriene C₄.** See SRS-A
- Levodopa**
dopamine D₂ receptor density remains constant in treated Parkinson's disease (Guttman et al), 487
intravenous lisuride corrects oscillations of motor performance in Parkinson's disease (Obeso et al), 31
long-term follow-up of early dopa treatment in Parkinson's disease (Markham and Diamond), 365
- Lisuride**
intravenous lisuride corrects oscillations of motor performance in Parkinson's disease (Obeso et al), 31
- Lung neoplasms**
anticerebellar antibodies in serum and cerebrospinal fluid of a patient with oat cell carcinoma of the lung and paraneoplastic cerebellar degeneration (Greenlee and Lipton), 82
- Lymphocytes**
ecto-5'-nucleotidase activity in B and T lymphocytes and monocytes of patients with multiple sclerosis (Armstrong and Haire), 94
- Lymphocytic choriomeningitis**
oligoclonal immunoglobulin bands in cerebrospinal fluid of a patient with lymphocytic choriomeningitis (Jamieson et al), 386
- Lymphoma**
delayed postirradiation lower motor neuron syndrome (Gállego et al), LETTER, 308
- Macrophage activation**
thymosin β_4 is a shared antigen between lymphoid cells and oligodendrocytes of normal human brain (Dalakas and Trapp), 349
- Mannitol**
opening the blood-brain and blood-tumor barriers in experimental rat brain tumors: the effect of intracarotid hyperosmolar mannitol on capillary permeability and blood flow (Hiesiger et al), 50
- Massage**
prevention of classic migraine headache by digital massage of the superficial temporal arteries during visual aura (Lipton), LETTER, 515
- Meningitis**
false negative latex agglutination test in cryptococcal meningitis (Haldane et al), LETTER, 412
- Methysergide**
antimigraine drug interactions with 5-hydroxytryptamine_{1A} receptors (Hiner et al), 511
- Mice, wobbler**
impaired slow axonal transport in wobbler mouse motor neuron disease (Mitsumoto and Gambetti), 36
- Microcirculation**
kinetics of microcirculatory, NAD/NADH, and electrocorticographic changes in cat brain cortex during ischemia and recirculation (Dora et al), 536
- Migraine**
antimigraine drug interactions with 5-hydroxytryptamine_{1A} receptors (Hiner et al), 511
contingent negative variation in headache (de Noordhout et al), 78
loss of consciousness in migraine: clinical and EEG findings during an attack (Dick et al), LETTER, 514
prevention of classic migraine headache by digital massage of the superficial temporal arteries during visual aura (Lipton), LETTER, 515
- Mineral waters**
"mineral transporter" therapy for multiple sclerosis complicated by bacterial endocarditis (Brown and Brooks), LETTER, 203
- Mitochondria**
kinetics of microcirculatory, NAD/NADH, and electrocorticographic changes in cat brain cortex during ischemia and recirculation (Dora et al), 536
- Mitochondria, muscle, pathology**
treatment of mitochondrial myopathy due to complex III deficiency with vitamins K₃ and C: a ³¹P-NMR follow-up study (Argov et al), 598
- Monocytes**
ecto-5'-nucleotidase activity in B and T lymphocytes and monocytes of patients with multiple sclerosis (Armstrong and Haire), 94
- Motor neurons**
axonal transport in the motor neurons of rats with neuropathy induced by *p*-bromophenylacetylurea (Nagata and Brimijoin), 458
impaired slow axonal transport in wobbler mouse motor neuron disease (Mitsumoto and Gambetti), 36
- Motor neurons, pathology**
N-acetyl- β -hexosaminidase β locus defect and juvenile motor neuron disease: a case study (Cashman et al), 568
delayed postirradiation lower motor neuron syndrome (Gállego et al), LETTER, 308
- Movement**
intravenous lisuride corrects oscillations of motor performance in Parkinson's disease (Obeso et al), 31
recovery of somatosensory evoked potential amplitude after movement (Angel et al), 344
- Movement disorders**
periodic leg movements of sleep (nocturnal myoclonus): an electrophysiological study (Wechsler et al), 168

MRI. See nuclear magnetic resonance

Multiple sclerosis

ecto-5'-nucleotidase activity in B and T lymphocytes and monocytes of patients with multiple sclerosis (Armstrong and Haire), 94

immunohistochemical analysis of the cellular infiltrate in multiple sclerosis lesions (Hauser et al), 578

initial diagnosis of multiple sclerosis (Nuwer et al), LETTER, 414; reply (Gebarski et al), LETTER, 414

lymphocyte phenotypes in the multiple sclerosis lesion—what do they mean? (Zweiman), EDITORIAL, 588

"mineral transporter" therapy for multiple sclerosis complicated by bacterial endocarditis (Brown and Brooks), LETTER, 203

Muscles, injuries

monoclonal antibody analysis of mononuclear cells in myopathies. III: immunoelectron microscopy aspects of cell-mediated muscle fiber injury (Arahata and Engel), 112

Muscular dystrophy

phosphorylation of intact erythrocytes in human muscular dystrophy (Johnson and Nigro), 397

Mutism

AIDS dementia complex: I. clinical features (Navia et al), 517

Myasthenia gravis

effect of thymectomy on blood T-cell subsets in myasthenia gravis (Cox et al), 297

intravascular contrast media and neuromuscular junction disorders (Van den Bergh et al), LETTER, 206

suppressor T cells in myasthenia gravis and antibodies to acetylcholine receptor (Lisak et al), 87

topical therapy for oropharyngeal symptoms of myasthenia gravis (Dooley et al), 192

Myelin proteins

clinical correlation with anti-peripheral-nerve myelin antibodies in Guillain-Barré syndrome (Koski et al), 573

human anti-myelin-associated glycoprotein IgM system (Murray et al), 473

isolation of P₂ protein-reactive T-cell lines from human blood (Burns et al), 391

Myelin sheath

dysglobulinemic neuropathy: absence of immunoglobulin within myelin sheaths (Rodriguez and Powell), LETTER, 204

thymosin β_4 is a shared antigen between lymphoid cells and oligodendrocytes of normal human brain (Dalakas and Trapp), 349

Myelin sheath, physiology

normal myelination of regenerating peripheral nerve sprouts despite circulating antibodies to galactocerebroside in rabbits (Stoll et al), 189

Myoclonus

AIDS dementia complex: I. clinical features (Navia et al), 517

Myositis

monoclonal antibody analysis of mononuclear cells in myopathies. III: immunoelectron microscopy aspects of cell-mediated muscle fiber injury (Arahata and Engel), 112

Myotonia

successful treatment with tocainide of recessive generalized congenital myotonia (Streib), 501

Myxoma

recurrent cerebral embolism from a right atrial myxoma (Butler et al), LETTER, 608

NAD

kinetics of microcirculatory, NAD/NADH, and electrocorticographic changes in cat brain cortex during ischemia and recirculation (Dora et al), 536

Narcolepsy

narcolepsy following cerebral hypoxic ischemia (Rivera et al), 505

Neoplasm staging

clinicopathological study of 323 patients with oligodendrogliomas (Ludwig et al), 15

Nerve fibers, myelinated

fiber loss is primary and multifocal in sural nerves in diabetic polyneuropathy (Rizza), 425

pathogenesis of diabetic neuropathy (Johnson et al), 450

spatial distribution of fiber loss in diabetic neuropathy suggests ischemia (Dyck et al), 440

Nervous system diseases

neuroepidemiology. Part II: assessment of therapeutic trials (Kurtzke), NEUROLOGICAL PROGRESS, 311

ocular palsy preceding chronic relapsing polyneuropathy (Fleet and Valenstein), LETTER, 413

Nervous system diseases, occurrence

response to Oken and Chiappa (Duffy et al), 494

statistical issues concerning computerized analysis of brain-wave topography (Oken and Chiappa), 493

Neural conduction

conduction failure and nerve conduction slowing in experimental allergic neuritis induced by P₂-specific T-cell lines (Heininger et al), 44

what determines the latency and amplitude of stationary peaks in far-field recordings? (Kimura et al), 479

Neuritis, experimental allergic

conduction failure and nerve conduction slowing in experimental allergic neuritis induced by P₂-specific T-cell lines (Heininger et al), 44

impaired slow axonal transport in wobbler mouse motor neuron disease (Mitsumoto and Gambetti), 36

Neuromuscular diseases

N-acetyl- β -hexosaminidase β locus defect and juvenile motor neuron disease: a case study (Cashman et al), 568

Neuronal ceroid-lipofuscinosis

urinary sediment dolichols in the diagnosis of neuronal ceroid-lipofuscinosis (Wolfe et al), 270

Neurons, pathology

cytoskeletal protein abnormalities in neurodegenerative diseases (Goldman and Yen), NEUROLOGICAL PROGRESS, 209

Nitrous oxide

comparison of isoflurane, halothane, and nitrous oxide in status epilepticus (Ropper et al), LETTER, 98

Nuclear magnetic resonance

cerebellar infarction: comparison of computed tomography and magnetic resonance imaging (Simmons et al), 291

initial diagnosis of multiple sclerosis (Nuwer et al), LETTER, 414; reply (Gebarski et al), LETTER, 414

magnetic resonance imaging in subacute necrotizing encephalomyelopathy (Leigh's disease) (Koch et al), 605

progressive multifocal leukoencephalopathy and magnetic resonance imaging (Levy et al), 399

treatment of mitochondrial myopathy due to complex III deficiency with vitamins K₃ and C: a ³¹P-NMR follow-up study (Argov et al), 598

Oligodendroglia

thymosin β_4 is a shared antigen between lymphoid cells and oligodendrocytes of normal human brain (Dalakas and Trapp), 349

- Oligodendroglioma**
 clinicopathological study of 323 patients with oligodendrogliomas (Ludwig et al), 15
- Olivary nucleus, pathology**
 abnormal platelet glutamate dehydrogenase activity and activation in dominant and nondominant olivopontocerebellar atrophy (Sorbi et al), 239
- Organophosphorous compounds, poisoning**
 edrophonium: an aid in the diagnosis of acute organophosphate poisoning (Maselli et al), 508
- Oxidation-reduction**
 kinetics of microcirculatory, NAD/NADH, and electrocorticographic changes in cat brain cortex during ischemia and recirculation (Dora et al), 536
- Pain**
 painful epileptic seizures involving the second sensory area (Young et al), LETTER, 412
- Paraparesis**
 tropical spastic paraparesis (Coleman and Sander), LETTER, 613; reply (Román et al), LETTER, 613
- Paraplegia**
 AIDS dementia complex: I: clinical features (Navia et al), 517
 somatosympathetic reflex unilateral sweating and pupillary dilatation in a paraplegic man (Saper and DeMarchena), 387
- Parkinson's disease**
 association between familial tremor and Parkinson's disease (Lang et al), LETTER, 306; reply (Jankovic), LETTER, 306
 concept of subcortical and cortical dementia: another look (Whitehouse), NEUROLOGICAL PROGRESS, 1
 cytoskeletal protein abnormalities in neurodegenerative diseases (Goldman and Yen), NEUROLOGICAL PROGRESS, 209
 deficits in orofacial sensorimotor function in Parkinson's disease (Schneider et al), 275
 dopamine D₂ receptor density remains constant in treated Parkinson's disease (Guttman et al), 487
 dopamine denervation does not alter in vivo ³H-spiperone binding in rat striatum: implications for external imaging of dopamine receptors in Parkinson's disease (Bennett and Wooten), 378
 intravenous lisuride corrects oscillations of motor performance in Parkinson's disease (Obeso et al), 31
 long-term follow-up of early dopa treatment in Parkinson's disease (Markham and Diamond), 365
 on heredity, twins, and Parkinson's disease (Duvoisin), EDITORIAL, 409
 striatal dopamine depletion, dopamine receptor stimulation, and GABA metabolism: implications for the therapy of Parkinson's disease (Bennett), 194
 swallowing and speech production in Parkinson's disease (Robbins et al), 283
- Parkinson's disease, genetics**
 monozygotic twins with Parkinson's disease (Koller et al), 402
 Parkinson's disease in monozygotic twins (Jankovic and Reches), 405
- Peripheral nerve diseases**
 clinical correlation with anti-peripheral-nerve myelin antibodies in Guillain-Barré syndrome (Koski et al), 573
- Peripheral nerves**
 isolation of P₂ protein-reactive T-cell lines from human blood (Burns et al), 371
- Peripheral nerves, pathology**
 pathogenesis of diabetic neuropathy (Johnson et al), 450
 spatial distribution of fiber loss in diabetic neuropathy suggests ischemia (Dyck et al), 440
- Phenytoin**
 phenytoin neuropathy: structural changes in the sural nerve (Ramirez et al), 162
- Phosphorylation**
 phosphorylation of intact erythrocytes in human muscular dystrophy (Johnson and Nigro), 397
- Pizotyline**
 antimigraine drug interactions with 5-hydroxytryptamine_{1A} receptors (Hiner et al), 511
- Pneumocystis carinii***
 fatal *Pneumocystis* pneumonia from ACTH therapy for infantile spasms (Goetting), LETTER, 307
- Pneumonia**
 fatal *Pneumocystis* pneumonia from ACTH therapy for infantile spasms (Goetting), LETTER, 307
- Poisoning**
 edrophonium: an aid in the diagnosis of acute organophosphate poisoning (Maselli et al), 508
- Polyamines, cerebrospinal fluid**
 cerebrospinal fluid polyamines: biochemical markers of malignant childhood brain tumors (Phillips et al), 360
- Polyradiculoneuritis**
 clinical correlation with anti-peripheral-nerve myelin antibodies in Guillain-Barré syndrome (Koski et al), 573
 Guillain-Barré syndrome associated with hepatitis A (Marés-Segura et al), LETTER, 100
 incubation period and severity of experimental allergic encephalomyelitis: analogy with swine-flu-vaccine-induced Guillain-Barré syndrome (Alvord), LETTER, 100
- Pons, pathology**
 abnormal platelet glutamate dehydrogenase activity and activation in dominant and nondominant olivopontocerebellar atrophy (Sorbi et al), 239
- Propranolol**
 antimigraine drug interactions with 5-hydroxytryptamine_{1A} receptors (Hiner et al), 511
- Proteins**
 cytoskeletal protein abnormalities in neurodegenerative diseases (Goldman and Yen), NEUROLOGICAL PROGRESS, 209
- Pseudotumor cerebri**
 low CSF protein concentration in idiopathic pseudotumor cerebri (Chandra et al), 78
- Psychomotor performance**
 deficits in orofacial sensorimotor function in Parkinson's disease (Schneider et al), 275
- Purkinje cell**
 granule cell deficit in the mouse cerebellum after total asphyxia (Yoshioka et al), 356
- Putrescine**
 cerebrospinal fluid polyamines: biochemical markers of malignant childhood brain tumors (Phillips et al), 360
- Pyridostigmine bromide**
 topical therapy for oropharyngeal symptoms of myasthenia gravis (Dooley et al), 192
- Radial nerve**
 what determines the latency and amplitude of stationary peaks in far-field recordings? (Kimura et al), 479
- Radiation injuries**
 delayed postirradiation lower motor neuron syndrome (Gállego et al), LETTER, 308

- focal cerebral vasculitis associated with circulating immune complexes and brain irradiation (Groothuis and Mikhael), 590
- Radioisotopes
uptake of radiolabeled ions in normal and ischemia-damaged brain (Dienel and Pulsinelli), 465
- Receptors, adrenergic
 α -1 adrenoceptors are decreased in human epileptic foci (Brière et al), 26
- Receptors, adrenergic, beta
antimigraine drug interactions with 5-hydroxytryptamine_{1A} receptors (Hiner et al), 511
- Receptors, cholinergic
suppressor T cells in myasthenia gravis and antibodies to acetylcholine receptor (Lisak et al), 87
- Receptors, dopamine
Alzheimer's disease: monoamines and spiperone binding reduced in nucleus basalis (Sparks et al), 602
dopamine D₂ receptor density remains constant in treated Parkinson's disease (Guttman et al), 487
dopamine denervation does not alter in vivo ³H-spiperone binding in rat striatum: implications for external imaging of dopamine receptors in Parkinson's disease (Bennett and Wooten), 378
- Receptors, endorphin
traumatic injury alters opiate receptor binding in rat spinal cord (Krumins and Faden), 498
- Receptors, serotonin
Alzheimer's disease: monoamines and spiperone binding reduced in nucleus basalis (Sparks et al), 602
- Receptors, virus
antiidiotypic antibody to reovirus binds to neurons and protects from viral infection (Dichter et al), 555
- Reflex, pupillary
somatosympathetic reflex unilateral sweating and pupillary dilatation in a paraplegic man (Saper and DeMarchena), 387
- Reovirus infections
antiidiotypic antibody to reovirus binds to neurons and protects from viral infection (Dichter et al), 515
- Retrovirus infections
AIDS dementia complex: II. neuropathology (Navia et al), 525
- Saccades
blink-induced saccadic oscillations (Hain et al), 299
- Sciatic nerve, pathology
axonal transport in the motor neurons of rats with neuropathy induced by *p*-bromophenylacetylurea (Nagata and Brimijoin), 458
- Serotonin
Alzheimer's disease: monoamines and spiperone binding reduced in nucleus basalis (Sparks et al), 602
- Somatosensory cortex
painful epileptic seizures involving the second sensory area (Young et al), LETTER, 412
- Spasms, infantile
fatal *Pneumocystis* pneumonia from ACTH therapy for infantile spasms (Goetting), LETTER, 307
- Spasticity
tropical spastic paraparesis (Coleman and Sander), LETTER, 613; reply (Román et al), LETTER, 613
- Speech disorders
swallowing and speech production in Parkinson's disease (Robbins et al), 283
- Spinal cord compression
spinal canal hemorrhage and CT scanning (Carol et al), LETTER, 102
- Spinal cord injuries
traumatic injury alters opiate receptor binding in rat spinal cord (Krumins and Faden), 498
- Spinal cord neoplasms
delayed postirradiation lower motor neuron syndrome (Gállego et al), LETTER, 308
- Spinal injuries
somatosympathetic reflex unilateral sweating and pupillary dilatation in a paraplegic man (Saper and DeMarchena), 387
- Spinopontine degeneration. *See* Cerebellar ataxia
- Spiperone
Alzheimer's disease: monoamines and spiperone binding reduced in nucleus basalis (Sparks et al), 602
dopamine denervation does not alter in vivo ³H-spiperone binding in rat striatum: implications for external imaging of dopamine receptors in Parkinson's disease (Bennett and Wooten), 378
- SRS-A
increased leukotriene C₄ and vasogenic edema surrounding brain tumors in humans (Black et al), 592
- Statistics
response to Oken and Chiappa (Duffy et al), 494
statistical issues concerning computerized analysis of brain-wave topography (Oken and Chiappa), 493
statistical issues concerning computerized analysis of brain-wave topography (Asbury), EDITORIAL COMMENT, 497
- Streptococcus*
"mineral transporter" therapy for multiple sclerosis complicated by bacterial endocarditis (Brown and Brooks), LETTER, 203
- Stroke
atrial size, atrial fibrillation, and stroke (Caplan et al), 158
- Subacute sclerosing panencephalitis
intrathecal interferon in subacute sclerosing panencephalitis (Huttenlocher et al), 303
signs of focal posterior cerebral abnormality in early subacute sclerosing panencephalitis (Begeer et al), 200
- Sulfatases
new syndrome of anosmia, ichthyosis, hypogonadism, and various neurological manifestations with deficiency of steroid sulfatase and arylsulfatase C (Sunohara et al), 174
- Sural nerve
phenytoin neuropathy: structural changes in the sural nerve (Ramirez et al), 162
- Sural nerve, pathology
fiber loss is primary and multifocal in sural nerves in diabetic polyneuropathy (Rizza), 425
pathogenesis of diabetic neuropathy (Johnson et al), 450
- Sural nerve, ultrastructure
accumulation of glycogen in sural nerve axons in adult-onset type III glycogenosis (Ugawa et al), 294
- Sweating
somatosympathetic reflex unilateral sweating and pupillary dilatation in a paraplegic man (Saper and DeMarchena), 387
- Tetrabenazine
tetrabenazine and dystonia in primates (Liebman), LETTER, 203; reply (Burke), LETTER, 204

- Thymectomy**
effect of thymectomy on blood T-cell subsets in myasthenia gravis (Cox et al), 297
- Thymosin**
thymosin β_4 is a shared antigen between lymphoid cells and oligodendrocytes of normal human brain (Dalakas and Trapp), 349
- T lymphocytes**
immunohistochemical analysis of the cellular infiltrate in multiple sclerosis lesions (Hauser et al), 578
lymphocyte phenotypes in the multiple sclerosis lesion—what do they mean? (Zweiman), EDITORIAL, 588
- Tocainide**
successful treatment with tocainide of recessive generalized congenital myotonia (Streib), 501
- Tomography, emission computed**
age differences in intercorrelations between regional cerebral metabolic rates for glucose (Horwitz et al), 60
cerebral mapping of apraxia in Alzheimer's disease by positron emission tomography (Foster et al), 139
response to Oken and Chiappa (Duffy et al), 494
slowly progressive aphasia without generalized dementia: studies with positron emission tomography (Chawluk et al), 68
statistical issues concerning computerized analysis of brain-wave topography (Oken and Chiappa), 493
uptake of radiolabeled ions in normal and ischemia-damaged brain (Dienel and Pulsinelli), 465
- Tomography, x-ray computed**
cerebellar infarction: comparison of computed tomography and magnetic resonance imaging (Simmons et al), 291
cerebral toxoplasmosis complicating the acquired immune deficiency syndrome: clinical and neuropathological findings in 27 patients (Navia et al), 224
human anatomy and the frontal lobes. Part I: imitation and utilization behavior: a neuropsychological study of 75 patients (Lhermitte et al), 326
magnetic resonance imaging in subacute necrotizing encephalomyelopathy (Leigh's disease) (Koch et al), 605
postoperative contrast enhancement in patients with brain tumor (Weisberg), LETTER, 611; reply (Cairncross et al), LETTER, 611
- spinal canal hemorrhage and CT scanning (Carol et al), LETTER, 102
- Tongue**
deficits in orofacial sensorimotor function in Parkinson's disease (Schneider et al), 275
- Tourette's syndrome**
episodic Tourette's syndrome in a patient with Citrullinemia (Drury et al), LETTER, 612
- Toxoplasmosis**
cerebral toxoplasmosis complicating the acquired immune deficiency syndrome: clinical and neuropathological findings in 27 patients (Navia et al), 224
- Tremor**
amantadine may be useful in essential tremor (Obeso et al), LETTER, 99
association between familial tremor and Parkinson's disease (Lang et al), LETTER, 306; reply (Jankovic), LETTER, 306
- Trigeminal neuralgia**
how does vascular decompression surgery improve trigeminal neuralgia? (Tenser), LETTER, 514
- Twins, dizygotic**
on heredity, twins, and Parkinson's disease (Duvoisin), EDITORIAL, 409
